Deaths of peacocks on account of insecticides

4609. SHRI SWARAJ KAUSHAL: Will the Minister of ENVIRONMENT AND FORESTS be pleased to state:

(a) whether it is a fact that a large number of peacocks died recently;

(b) if so, the details thereof; and

(c) whether the deaths have occurred due to insecticide treated seeds; if so, what steps Government propose to take to prevent these deaths on account of insecticides?

THE MINISTER OF ENVIRONMENT AND FORESTS (SHRI T.R. BAALU): (a) to (c) Cases of deaths of peafowls have been reported from different States during the recent past. Investigations

have revealed that many of them have died after consuming pesticide treated seeds sown in agricultural fields.

The steps taken by the Government to prevent deaths of peafowls due to insecticides are as follows:

i. Awareness is generated amongst the farmers for using Bio-pesticides and non-poisonous chemicals in their fields.
ii. The farmers are advised to cover the seeds with soil immediately after sowing.
iii. The forest field staff have been instructed to maintain vigil in sensitive areas.
iv. The Animal Husbandary Departments have been advised to provide veterinary help to the sick birds.
v. Awareness is generated amongst villages to report such instances of poisoning cases to the Veterinary Officers so that timely treatment can be provided to the birds.
